Monday 26 September 2016

MONDAY 26 SEPTEMBER – EXHIBITION VIEWING 10:45 – 17:40	Time	Royal Hall	Queens Suite 1	Queens Suite 2	Kings Suite
	08:40	<p>Welcome Karen Wares, SPC Co-ordinator @kdwares</p>			
	08:45 09:00	<p>Opening Session Professor Heather Loveday, IPS President @loveebhc</p>			
	09:00 09:35	<p>SESSION 1</p> <p>Keynote Address –</p> <p><i>The battle between gram-positives, gram-negatives and humans</i></p> <p>Professor Gary French President, Healthcare Infection Society</p> <p>This session will describe and explain the changing picture of gram-positive and gram-negative healthcare infections and the implications for present and future treatment and control.</p>			
	09:35 10:10	<p>SESSION 2</p> <p><i>Emerging threats and prevention opportunities</i></p> <p>Professor A.P.R. Wilson Consultant Microbiologist, University College London</p> <p>The objective of this session is to understand the measures and rationale for infection prevention measures against multi-resistant Gram negative bacteria.</p>			

Monday continued

	Time	Royal Hall	Queens Suite 1	Queens Suite 2	Kings Suite
MONDAY 26 SEPTEMBER – EXHIBITION VIEWING 10:45 – 17:40	10:10 – 10:45	SESSION 3 Adapt to adopt Professor Didier Pittet <i>Director, Infection Control Programme & WHO Collaborating Centre on Patient Safety, The University of Geneva Hospitals and Faculty of Medicine</i> @DidierPittet This session is about how economics can inform decisions about the many competing infection prevention activities we have to choose between. There is not enough money to do everything for all patients all of the time. The talk will include examples about programmes to prevent infections in total hip replacements and initiatives to improve hand hygiene.			
	10:45 – 11:30	EXHIBITION VIEWING, POSTER VIEWING AND REFRESHMENTS			
	11:30 – 12:05	SESSION 4 EM Cottrell Lecture Mary Dixon-Woods <i>Fellow, Academy of Social Sciences and the Academy of Medical Sciences</i> @MaryDixonWoods The objective of this session is to explore how research in patient safety and infection prevention and control can mutually inform each other to the benefit of both.			
	12:10 – 12:30	IPS Annual General Meeting This session is open to members only	EXHIBITION VIEWING AND POSTER VIEWING FOR NON IPS MEMBERS		
	12:30 – 13:45	EXHIBITION VIEWING, POSTER VIEWING AND LUNCH			

PROGRAMME

Monday continued

	Time	Royal Hall	Queens Suite 1	Queens Suite 2	Kings Suite
MONDAY 26 SEPTEMBER – EXHIBITION VIEWING 10:45 – 17:40	13:45 – 14:20	<p>SESSION 5a</p> <p>Making the Patient Experience a Priority</p> <p>Liz Jones Head of Patient Environment Department of Health</p> <p>At the end of this session, participants will understand how a good environment can give patients greater confidence in the healthcare system. They will also appreciate how to modify the environment to give better care for people with dementia and will be able to identify areas of tension between an environment focused on infection prevention and one that takes account of wider aspects of patient safety and comfort.</p>	<p>SESSION 5b</p> <p>Oral paper presentation 1</p> <p>Development of national guidance for the decontamination of semi-invasive ultrasound probes</p> <p>Hayley Kane¹ Robert Seremani¹ Andrew Tweedie² ¹Health Protection Scotland, ²Health Facilities Scotland</p> <p>Oral paper presentation 2</p> <p>The importance of room set up (staging) on efficacy of UVC whole room disinfection in a single side-room with en-suite.</p> <p>Angela Beal, Karren Staniforth, Natalie Vaughan Nottingham University Hospitals NHS Trust</p>	<p>SESSION 5c</p> <p>Evaluation of training</p> <p>Martin Kiernan Visiting Clinical Fellow, Richard Wells Research Centre, University of West London and Clinical Director, Gama Healthcare @emrsa15</p> <p>During this session Martin will review the importance of evaluating training, discuss evaluation methods and review strategies for measuring the effectiveness of training in terms of attitudes, skills and behaviour change.</p>	<p>SESSION 5d</p> <p>NEW TO INFECTION PREVENTION STREAM</p> <p>Craig Bradley Lead Nurse for Infection Prevention, University Hospitals Birmingham NHS Foundation Trust @CraigBradleyF1</p> <p>Karen Wares Nurse Consultant – Healthcare Associated Infection (HAI), NHS Grampian @kdwares</p> <p>This session will give the audience an opportunity to network, explain our top-tips for infection prevention and describe the opportunities available for an Infection Prevention Practitioner.</p>
	14:25 – 15:00	<p>SESSION 6a</p> <p>Hygienic laundering of clothing, bedlinens, towels etc in domestic and healthcare settings – new insights</p> <p>Professor Sally Bloomfield London School of Hygiene and Tropical Medicine @SallyFBloom</p> <p>* recognition to co-author: Prof. Dr Dirk Bockmühl, Rhine-Waal University of Applied Sciences, Germany</p> <p>The objective of this session is to review existing and new data on how temperature, detergent formulation and wash cycle conditions affect hygiene efficacy of machine laundering and evaluate implications for laundering recommendations.</p>	<p>SESSION 6b</p> <p>Oral paper presentation 3</p> <p>Establishing caesarean section surveillance as a patient safety initiative – A trust's success story</p> <p>Lilian Chiwera, Dr Neil Wigglesworth, Ms Fiona Little, Dr William Newsholme, Dr Patrick Bose, Dr Gabriella Gray Guys & St Thomas' NHS Foundation Trust,</p> <p>Oral paper presentation 4</p> <p>Reducing naughty CAUTI</p> <p>Carole Hallam, Maggie Shepley Calderdale and Huddersfield NHS Foundation Trust</p>	<p>SESSION 6c</p> <p>How effective is our teaching?</p> <p>Paul Weaving Associate Director of Infection Prevention and Control, North Middlesex Hospital @APaulW</p> <p>This session will explore some of the factors that may influence the effectiveness of teaching and contribute to understanding the importance of effective evaluation.</p>	<p>SESSION 6d</p> <p>The basics of microbiology and immunology</p> <p>Dr Tim Boswell HIS Chairman and Consultant Medical Microbiologist, Nottingham University Hospitals NHS Trust, UK @TimCJBoswell</p> <p>The objective of this session is to give a basic overview of medical microbiology (bacteria, viruses and fungi), to understand the principles of colonisation, infection and opportunistic infection, to understand the basic principles behind infection diagnosis, taking of samples and interpretation of results, and finally to look at the basics of immunology – immune response, natural immunity and vaccination.</p>

Monday continued

<p>MONDAY 26 SEPTEMBER – EXHIBITION VIEWING 10:45 – 17:40</p>	Time	Royal Hall	Queens Suite 1	Queens Suite 2	Kings Suite	
	15:05 – 15:40	<p>SESSION 7a</p> <p><i>Guided poster talks and poster viewing in designated poster viewing area</i></p> <p>Poster presenters under the following topics will either be standing by their poster to take your questions or will be taking part in the poster walks.</p> <p>Poster Talk topics Innovation and Improvements in Practice. Standard Precautions including Hand Hygiene. Epidemiology and Surveillance of HCAI.</p>			<p>SESSION 7b</p> <p><i>How to assess scientific posters: a practical guide</i></p> <p>Michael Nevill Director of Infection Prevention and Control at the British Pregnancy Advisory Service @michael_nevill</p> <p>One of the most important parts of infection prevention conferences is the scientific posters. There is always some top-notch science on show, some of which will have implications for your day job. But where to start in accessing the important information for you? This practical guide will take you through the process of deciding which posters to visit, tips for quickly reviewing posters, and some ideas for making the most of the new information you will gain.</p>	
	15:40 – 16:25	<p>EXHIBITION VIEWING, POSTER VIEWING AND REFRESHMENTS</p>				
	16:25 – 17:00	<p>SESSION 8a</p> <p><i>Using the NHS Safety Thermometer to reduce catheter associated urinary tract infections</i></p> <p>Craig Bradley Lead Nurse for Infection Prevention, University Hospitals Birmingham NHS Foundation Trust @CraigBradleyF1</p> <p>Kerry Holden Senior Specialist Nurse in Infection Prevention and Control, University Hospitals Birmingham NHS Foundation Trust @kerrytwin1</p> <p>The objective of this session is to provide an overview of the NHS Safety Thermometer with a particular reference to urinary tract infections. This session will explain how to apply the post infection review process to new UTI harms identified from the NHS Safety Thermometer to inform and change practice. The session will also present an argument on the use of urinary catheter prevalence data as a better indicator of catheter associated urinary tract infections.</p>	<p>SESSION 8b</p> <p><i>TB – healthcare related outbreaks – a problem?</i></p> <p>Dr Evonne T. Curran Nurse Consultant, Health Protection Scotland @EvonneTCurran</p> <p>In this session, I am going to review the evidence and suggest that nosocomial TB is a clear and present danger. Alongside a review of early outbreaks there will be a look at the worldwide epidemiology including that of TB in the UK. As nosocomial outbreaks of TB have and continue to happen, the current NICE guidance will be considered as a means to effectively prevent nosocomial TB.</p>	<p>SESSION 8c</p> <p><i>Demystifying the process of writing for publication: a workshop for the aspiring writer</i></p> <p>Dr Jennie Wilson Associate Professor in Healthcare Epidemiology in the Richard Wells Research Centre at the University of West London @TalkJennie</p> <p>Dr Lesley Price Deputy Lead of Safeguarding Health through Infection Prevention Research Group, Glasgow Caledonian University</p> <p>The objectives of this session will be to increase participants confidence in their ability to write for publication, increase their awareness of the process of writing an article for publication and provide guidance that will facilitate their successful publication of an article.</p>	<p>SESSION 8d</p> <p><i>Essential IPC tool kit</i></p> <p>Pat Cattini Lead Nurse/ Deputy Director, Infection Prevention and Control, The Royal Marsden NHS Foundation Trust @patcp66</p> <p>The objective of this session is to highlight the key infection prevention and control documents available to help you get through the day.</p>	

PROGRAMME

Monday continued

		Royal Hall	Queens Suite 1	Queens Suite 2	Kings Suite
MONDAY 26 SEPTEMBER – EXHIBITION VIEWING 10:45 – 17:40	Time				
	17:05 – 17:40	<p>SESSION 9a</p> <p>CDI – where are we?</p> <p>Professor Mark H. Wilcox Consultant Microbiologist and Head of Microbiology, Leeds Teaching Hospitals</p> <p>The objective of this session is to update on the progress with controlling CDI with a review of new developments.</p>	<p>SESSION 9b</p> <p>Unmasking a patient to healthcare worker TB outbreak</p> <p>Dr Mark Garvey Principal Clinical Scientist in Infection University Hospitals Birmingham NHS Trust @drmarkgarvey</p> <p>During this session Dr Garvey will describe an outbreak of TB in a healthcare setting and highlight the risk of TB transmission in a healthcare setting. The session also aims to improve recognition of patients with suspected infectious or confirmed pulmonary or laryngeal TB before or at presentation and heighten awareness of healthcare workers to TB and the tests available for diagnosis. The infection prevention and control measures for staff dealing with TB will also be discussed.</p>		<p>SESSION 9c</p> <p>Clean it up! Decontamination of devices and the environment</p> <p>Peter Hoffman Consultant Clinical Scientist in Public Health England.</p> <p>This session will describe the principles of decontamination, discuss how to risk assess for the decontamination of medical devices and explain how to put this into practice.</p>

Tuesday 27 September 2016

		Royal Hall	Queens Suite 1	Queens Suite 2	Kings Suite
TUESDAY 27 SEPTEMBER – EXHIBITION VIEWING 08:30 – 17:35	Time				
	08:30 – 09:00	<p>SESSION 10a –</p> <p>Meet the expert: Standard infection control precautions</p> <p>Lisa Ritchie Nurse Consultant Infection Control, Health Protection Scotland @Lisaritchie111</p> <p>The objective of this session is to make a case for the standardisation of Standard Infection Control Precautions (SICPs).</p>	<p>SESSION 10b –</p> <p>Meet the expert: Current microbiological threats</p> <p>Dr Tim Boswell HIS Chairman and Consultant Medical Microbiologist, Nottingham University Hospitals NHS Trust @TimCJBoswell</p> <p>This session will review the micro-organisms and other microbiological issues that currently pose a threat to the NHS from an infection prevention and control perspective.</p>	<p>SESSION 10c –</p> <p>Meet the expert: Using the toolkit to build a CPE policy</p> <p>Dr Jon Otter Epidemiologist, Imperial College Healthcare NHS Trust @jonotter</p> <p>Tracey Galletly @TraceyGalletly Trust Lead Nurse for IPC, Imperial College London</p> <p>This will be an interactive session to discuss some of the controversial areas in building a CPE policy.</p> <ul style="list-style-type: none"> We will discuss: screening (who, how, when?), isolation (pre-emptive, duration, PPE, priorities, cohorting?), cleaning/disinfection (agent, frequency, assurance, automation?), and 'outside the box' measures (staff screening, monitors, decolonisation?). The discussion will provide insight into how other hospitals address the management of CPE, and work towards a consensus on controversial points. Practical challenges around converting policy into practice will be discussed. 	

Tuesday continued

	Time	Royal Hall	Queens Suite 1	Queens Suite 2	Kings Suite
TUESDAY 27 SEPTEMBER – EXHIBITION VIEWING 08:30 – 17:35	09:05 – 09:40	<p>SESSION 11a</p> <p><i>Do we really know what our hands do?</i></p> <p>Dr Hugo Sax Head of Infection Control Programme, University of Zurich @hugo_sax</p> <p>During this session Dr Sax will perceive the care environment as a multi-way traffic system for potential pathogens; distinguish physiopathology of infection versus spread of antibiotic resistance genes among colonizing flora; appreciate the difference between human risk perception and true microbiological risk and appreciate the limits of today's knowledge about the 'life of germs'.</p>			<p>SESSION 11b</p> <p>Mental health workshop</p> <p><i>Outbreak of Campylobacter in a mental health trust</i></p> <p>Penny Criddle Senior Infection Prevention and Control Nurse, Royal Devon and Exeter NHS Foundation Trust</p> <p>A multi-agency investigation of Campylobacter infection will be described; the challenges of undertaking epidemiological studies in a mental health setting will be discussed and conclusions and lessons learned from the outbreak shared.</p>
	09:45 – 10:20	<p>SESSION 12a</p> <p><i>Antibiotic stewardship – a national and international perspective</i></p> <p>Dr Kieran Hand Consultant Pharmacist, University Hospital Southampton</p> <p>This session aims to increase delegates' awareness of antibiotic stewardship initiatives active in primary and secondary care in the NHS in 2016 and to place into context with stewardship strategies in other countries.</p>	<p>SESSION 12b</p> <p><i>Staphylococcus aureus carriage in patients and staff – what are the implications?</i></p> <p>Dr Peter Jenks Director of Infection Prevention and Control, Plymouth Hospitals NHS Trust</p> <p>The objective of this session is to understand the current significance of <i>Staphylococcus aureus</i> carriage in patients and staff.</p>	<p>SESSION 12c</p> <p><i>Introducing the new WHO guidelines for surgical site infection prevention</i></p> <p>Dr Peter Bischoff Resident and Research Fellow, University Berlin</p> <p>This session aims to inform delegates of the new WHO SSI guidelines, and advise them on the recommendations for practical implementation.</p>	<p>SESSION 12d</p> <p>Mental health workshop</p> <p><i>Self-harm – is it just a Mental Health problem?</i></p> <p>Amanda Miskell Consultant Nurse Infection Prevention and Control, Cheshire and Wirral Partnership (CWP) NHS Foundation Trust</p> <p>Self-harm is a generic term usually associated with Mental Health services. This session will explore the meaning of self-harm, how to reduce the associated risks, including infection, and improve the outcomes for those who self-harm or care for people who self-harm.</p>
	10:25 – 10:55	<p>SESSION 13 <i>Poster talks and poster viewing in designated poster viewing area</i></p> <p>Poster presenters under the following topics will either be standing by their poster to take your questions or will be taking part in the poster walks.</p> <p>Outbreaks & other topics. Decontamination of environment & decontamination of equipment. Antimicrobial prescribing and stewardship & education and training.</p>			
10:55 – 11:40	EXHIBITION VIEWING, POSTER VIEWING AND REFRESHMENTS				

PROGRAMME

Tuesday continued

Time	Royal Hall	Queens Suite 1	Queens Suite 2	Kings Suite
11:40 – 12:15	<p>SESSION 14a</p> <p><i>The effectiveness of cleaning bundles – the REACH study</i></p> <p>Professor Brett Mitchell Associate Professor of Nursing and Director of the Lifestyle Research Centre, Avondale College of Higher Education, Australia @bgm_2012</p> <p>This session will describe an approach to evaluating the effectiveness and cost-effectiveness of environmental cleaning in 11 Australian hospitals.</p>	<p>SESSION 14b</p> <p><i>MDR Gram-negative outbreaks following endoscopy – experiences and recommendations for practice</i></p> <p>Dr Margreet Vos Professor in Medical Microbiology, Dept of Medical Microbiology and Infectious Diseases, Erasmus MC, The Netherlands</p> <p>During the session we will explore how (un)safe is ERCP; can we prevent transmission from microorganisms by ERCP</p>	<p>SESSION 14c</p> <p><i>Laminar air – review of the evidence</i></p> <p>Professor Hilary Humphreys Professor of Clinical Microbiology and Consultant Microbiologist Royal College of Surgeons in Ireland @HHumphreys11</p> <p>The objectives of this session are to review the original data on the effectiveness of laminar flow in preventing prosthetic joint infections; discuss recent literature that disputes this; explore possible reasons for this discrepancy and suggest what should happen next.</p>	<p>SESSION 14d</p> <p>Oral paper presentation 5 <i>Attitudes of student nurses to the use of non-sterile clinical gloves</i></p> <p>Associate Professor Jennie Wilson Professor Heather Loveday Ms Aggie Bak Mr Andrew Dunnett University of West London</p> <p>Oral paper presentation 6 <i>A Student-led Investigation: Hand-washing in a Primary School Setting</i></p> <p>Dona Foster¹, Dr Christopher Flaherty², Jo Eagle², Edoardo Benali², Isabelle Bonnie², Harry Creak², Oscar Firth², Harry Foster², Harriet Goddard², Charlie Hodges², Lydia Johnson², Will Matthews², Ellie McBride², Louis Sharpe-Wood², Tom Smith², Prof Derrick Crook³</p> <p>¹IPS, ²Cokethorpe School, ³University of Oxford</p>
	12:20 – 12:55	<p>SESSION 15a</p> <p><i>How do we manage patients who have diarrhoea and vomiting in the Acute Medical Unit (AMU)?</i></p> <p>Matsikachando Moyo Clinical Doctoral Research Fellow at the Faculty of Health Sciences, University of Southampton @matsika_dot_org</p> <p>The objective of the session is to enable attendees to learn about an ethnographic case study that investigated the assessment and care of patients with symptoms of diarrhoea and vomiting in an acute care setting. The methods and findings will be illustrated using narrative and photographic evidence. Attendees will be invited to consider the solutions proposed by clinicians to overcome identified infection prevention challenges and their wider practice implications. Finally, the limitations of the case study will be discussed and future research topics suggested.</p>	<p>SESSION 15b</p> <p><i>Endoscope decontamination: from guidance to practice</i></p> <p>Peter Hoffman Consultant Clinical Scientist, Public Health England</p> <p>The objectives of this session are to understand the stages in endoscope decontamination; appreciate where and how things can go wrong and be aware of recent changes in guidance.</p>	<p>SESSION 15c</p> <p><i>Patient warming in the perioperative setting</i></p> <p>Professor Judith Tanner Professor of Adult Nursing, University of Nottingham</p> <p>The objective of this session is to gain an understanding of the evidence base and importance of patient warming in the perioperative period.</p>
12:55 – 14:25	EXHIBITION VIEWING, POSTER VIEWING AND LUNCH			

TUESDAY 27 SEPTEMBER – EXHIBITION VIEWING 08:30 – 17:35

Tuesday continued

	Time	Royal Hall	Queens Suite 1	Queens Suite 2	Kings Suite
TUESDAY 27 SEPTEMBER – EXHIBITION VIEWING 08:30 – 17:35	13:05 – 13:35	LUNCHTIME SYMPOSIUM, QUEENS SUITE 1 – ICNET PLC HAls: Electronic surveillance in infection prevention: local to national implementation <i>Tracey Cooper, Assistant Director of Nursing – Infection Prevention, Betsi Cadwaladr University Health Board.</i> <i>Tracey Gauci, Assistant Director of Nursing – Infection Prevention and Control, Abertawe Bro Morgannwg University Health Board.</i> <i>Dafydd Williams, Specialist Matron Infection Prevention, Betsi Cadwaladr University Health Board.</i>			
	14:25 – 15:00	SESSION 16a Meeting the challenges of MDR Gram-negatives – experiences from Asia Dr Moi Lin Ling <i>President of APSIC, the Asia Pacific Group</i> <p>During this session Dr Ling will outline her experiences of managing MDR Gram-negatives at a tertiary acute care hospital in Singapore.</p> <p><i>Supported with an educational grant from GAMA Healthcare</i></p>	SESSION 16b Using focus groups to improve compliance with infection prevention? Marlene Hay <i>Senior IPC Nurse within Greater Glasgow and Clyde</i> <p>The objective of the session is to allow attendees to gain an understanding of the reason for the study, understand the advantages and disadvantages of using focus groups including ethical considerations in doing research with healthcare professionals. It will also give an insight into what motivates doctors and nurses to comply with IPC practice and provide ideas of how the findings from the focus groups can be used by IPC teams to improve compliance with IPC.</p>	SESSION 16c Recognising and diagnosing infection in percutaneous wounds, and the infection risks of external fixators Dr Julie Santy-Tomlinson <p>The objective of this session is to enable colleagues to understand the infection risks of external fixators, and recognise the signs of infection in percutaneous wounds.</p>	SESSION 16d Oral paper presentation 9 Frequency of use and activation of safety-engineered sharps devices: a sharps container contents audit in 7 UK Hospital Trusts Dr Terry Grimmond <i>Grimmond and Associates</i> Oral paper presentation 10 Decreased bacterial contamination of dental unit waterlines with the introduction of reverse osmosis water Emma Best¹, Sharon Kelly¹, Dr Kavita Sethi¹, Peter Parnell¹, Paul Verity² ¹ Leeds Teaching Hospitals, ² Public Health England

PROGRAMME

Tuesday continued

	Time	Royal Hall	Queens Suite 1	Queens Suite 2	Kings Suite
TUESDAY 27 SEPTEMBER – EXHIBITION VIEWING 08:30 – 17:35	15:05 – 15:40	<p>SESSION 17a</p> <p>Antibiotic resistance – can we ever go green?</p> <p>Dr Fidelma Fitzpatrick Senior Lecturer, Royal College of Surgeons in Ireland and Consultant Microbiologist, Beaumont Hospital, Dublin @FfitzP</p> <p>This presentation will review recent UK and Irish surveillance data and discuss if there is any going back, specifically AMR in gram negatives and turning green!</p>	<p>SESSION 17b</p> <p>When an inspector calls</p> <p>Donna Winter Inspector, Care Quality Commission @dwinter14</p> <p>The objective of this session is to increase knowledge of healthcare regulation and to provide an overview and comparison of the different styles and themes of infection prevention and control inspection.</p>	<p>SESSION 17c</p> <p>One Together – Collaborating to reduce surgical site infections</p> <p>Deborah Xuereb Infection, Prevention and Control Practitioner, Malta @XuerebD</p> <p>The objective of this session is to look at how to utilise the One Together tool to improve quality of care in operating department.</p>	<p>SESSION 17d</p> <p>Oral paper presentation 11</p> <p>A randomised controlled trial to compare medical grade honey with mupirocin for MRSA decolonisation</p> <p>Toney Thomas¹, Dr Georgina Gethin², Dr Deirdre Hughes-Fitzgerald³, Prof Hilary Humphreys³ ¹Beaumont Hospital /RCSI, ²NUI, Galway, ³Royal College of Surgeons in Ireland</p> <p>Oral paper presentation 12</p> <p>Outbreak of Pantone-Valentine Leukocidin-associated Staphylococcus aureus (PVL-SA) skin infection linked to a diving club at a national sports centre; case management; environmental assessment and control measures</p> <p>Elizabeth Marchant¹, Ms Jean Bywater², Ms Esther Dias², Professor Keith Neal¹, Ms Jane de Burgh¹, Ms Louise Bishop¹, Dr Albert Mifsud^{1,3}, Dr Andrew Mackay³, Professor Angela Kearns¹, Dr Rebecca Cordery¹ ¹Public Health England, ²London Borough of Bromley, ³King's College London NHS Foundation Trust</p>
	15:40 – 16:25	EXHIBITION VIEWING, POSTER VIEWING AND REFRESHMENTS			

Tuesday continued

TUESDAY 27 SEPTEMBER – EXHIBITION VIEWING 08:30 – 17:35	Time	Royal Hall	Queens Suite 1	Queens Suite 2	Kings Suite
	16:25 – 17:35	<p>SESSION 18a</p> <p>Debate</p> <p><i>This house believes that contact precautions are essential for the management of patients with MDROs</i></p> <p>For the motion – Dr Eli Perencevich <i>Tenured Professor of Internal Medicine and Epidemiology, University of Iowa, USA</i> @eliowa</p> <p>vs</p> <p>Against the motion – Dr Fidelma Fitzpatrick <i>Senior Lecturer, Royal College of Surgeons in Ireland and Consultant Microbiologist, Beaumont Hospital, Dublin</i> @FitzP</p> <p>Are contact precautions essential for the management of patients with MDROs, do they work, or are we trying to find and flog the proverbial dead horse which is no longer in the stable.</p> <p>Leave your confirmation bias at the door and let the (academic) arguments summarise, solidify and convince you that you were either right all along or...</p>	<p>SESSION 18b</p> <p><i>Haemato-oncology an infection prevention dilemma</i></p> <p>Pat Cattini <i>Lead Nurse / Deputy Director Infection Prevention and Control, The Royal Marsden NHS Foundation Trust</i> @patcp66</p> <p>Sarah Whitney <i>Matron Infection Prevention and Control, Royal Marsden NHS Foundation Trust.</i></p> <p>The objective of this session is to raise participant awareness of the challenges associated with endogenous infection as opposed to exogenous cross infection. It will describe cross infection issues in a haematology-oncology setting. It will describe some of the infection issues associated with chemotherapy especially CRE and <i>C. difficile</i> and how these are tackled at the RMH. It will describe strategies to mitigate risks and optimise patient survival when faced with multi resistant organisms in bone marrow transplant patients. At the end of the session participants should have a greater understanding of the significance of infection in this patient group.</p>		
			<p>SESSION 19a</p> <p><i>Immunisation of children against influenza using the live attenuated intra-nasal spray</i></p> <p>Pauline MacDonald <i>Programme Director, National Childhood Flu Immunisation Taskforce, NHS England</i> @pauline573</p> <p>The objective of the session is to ensure delegates understand the aim and rationale for the extension of the seasonal flu immunisation programme to children, the planned role out and successes and lessons learnt to date.</p>		

PROGRAMME

Wednesday 28 September 2016

Time	Royal Hall	Queens Suite 1	Queens Suite 2	Kings Suite
			<p>Infection Prevention in Dentistry One Day Conference</p> <p>The Dentistry programme is run as a stand alone event. Main conference delegates may also attend this event. Registration 08:00 – 09:00</p>	
09:00 – 09:35	<p>SESSION 20a</p> <p>Ayliffe Lecture</p> <p><i>Using science to guide hand hygiene surveillance and improvement</i></p> <p>Dr Eli Perencevich Tenured Professor of Internal Medicine and Epidemiology, University of Iowa, USA @eliowa</p> <p>The objective of this session is to review the evidence supporting methods for measuring hand hygiene compliance and selecting interventions to improve compliance.</p>	<p>SESSION 20b</p> <p><i>Spreading odontogenic infections and severe oral sepsis</i></p> <p>Dr. Riina Rautemaa-Richardson Consultant in Medical Mycology and Senior Lecturer in Infectious Diseases and Medical Education, The University of Manchester</p> <p>The aim of this lecture is to provide a holistic insight to odontogenic infections and their management, summarise the impact of the medical history and the immunological status of the patient on the risk of developing severe complications and provide practical advice how these can be assessed in a GDP setting.</p>	<p>SESSION 20c</p> <p>Ambulance Forum Workshop</p> <p><i>IPC in a volunteer organisation – a road trip!</i></p> <p>Stevie Slade Clinical Development Manager, St Johns Ambulance</p> <p>The objective of this session is to describe the challenging journey SJA has taken, how is it different from other healthcare situations and to show the challenges we faced along the way and what we have achieved.</p>	<p>SESSION 1</p> <p>09:20 – 09:55</p> <p><i>A matter of time and touch</i></p> <p>Roy Browning Senior Nurse Infection Prevention & Control NHS Grampian</p> <p>The objective of this session is to identify facts between time (and growth) and touch in relation to the risk and potential transfer of organisms. To dispel myths about what we perceive to be a real risk or rumour for the transfer of organisms. To identify the risks from our environment and everyday objects.</p>
	09:40 – 10:15	<p>SESSION 21a</p> <p><i>Infection prevention and control staffing, what's the story?</i></p> <p>Professor Brett Mitchell Associate Professor of Nursing and Director of the Lifestyle Research Centre, Avondale College of Higher Education, Australia @bgm_2012</p> <p>This lecture will explore infection prevention and control staffing, outcomes and the role of credentialing.</p>	<p>SESSION 21b</p> <p><i>PHE studies on the transmission of prions and the efficacy of washer disinfectors</i></p> <p>Dr Jimmy Walker Scientific Leader in Water Microbiology and Decontamination, Public Health England @biofilmjimmy</p> <p>The objective of this session is to highlight the infection risk associated with dental instruments from microorganisms and prions discuss what guidelines are available and explain what to look for when assessing decontamination risk.</p>	<p>SESSION 21c</p> <p>Ambulance Forum Workshop</p> <p><i>Feasibility of pre-hospital sepsis management</i></p> <p>Kirsty Lee Morgan Head of Infection Prevention and Control East Midlands Ambulance Service</p> <p>Jonathon Chippendale Clinical Lead for Sepsis, East Midlands Ambulance Service</p> <p>The objectives of this session are to discuss the EMAS sepsis feasibility study; explore the successes and learning from the feasibility study and to discuss the implications for Trust wide roll out of pre-hospital blood cultures and antibiotic</p>

WEDNESDAY 28 SEPTEMBER – EXHIBITION VIEWING 09:00 – 14:20

Wednesday continued

	Time	Royal Hall	Queens Suite 1	Queens Suite 2	Kings Suite	
WEDNESDAY 28 SEPTEMBER – EXHIBITION VIEWING 09:00 – 14:20	10:10 – 10:55	EXHIBITION VIEWING, POSTER VIEWING AND REFRESHMENTS				SESSION 3 10:30 – 11:05 <i>Outbreaks – recognise, report, control</i> Dr Evonne T. Curran Nurse Consultant, Health Protection Scotland @EvonneTCurran The objective of this presentation is to discuss why it's important to be continuously vigilant, why we sometimes get it wrong and how to prevent, prepare for, recognise and gain control during an outbreak.
	10:55 – 11:30	SESSION 22a <i>Infection control and prevention in British hospitals between 1870 and 1970</i> Marguerite Dupree Honorary Professor of Social and Medical History, Centre for the History of Medicine, University of Glasgow Ann-Marie Rafferty Professor of Nursing Policy, King's College London @annemarieraffer This session will provide historical insights into infection control practices in four British hospitals between 1870 and 1970, allowing audience members to reflect on their relevance for hospital infection control practices today.	SESSION 22b <i>Surveillance for antimicrobial resistance in dentistry – no room for complacency</i> Professor Andrew Smith Consultant and Professor of Clinical Bacteriology, University of Glasgow The objective of this session are to provide an awareness of the principles of antimicrobial stewardship as applied to dental practice; discuss the different mechanisms of antimicrobial resistance likely to be found in bacteria causing oral infections and provide an understanding of the epidemiology of antimicrobial susceptibility patterns in oral infections.	SESSION 22c <i>Audit and Surveillance Workshop Enhanced surveillance of carbapenemase-producing Gram-negative bacteria in England</i> Dr Russell Hope Head of Mandatory Bacteraemia and CDI Surveillance Section Public Health England The objective of the session is to describe the web-based system used in the enhanced surveillance of carbapenemase-producing Gram-negative bacteria in England and present results from the first year of the surveillance programme.	11:05 – 11:50 EXHIBITION AND REFRESHMENT BREAK	
	11:35 – 12:10	SESSION 23a <i>Working In Sierra Leone during the Ebola crisis</i> Isata Victoria Mandoh Advanced Nursing Student University of Nottingham The objectives of this session are to understand the Sierra Leonean context during the 2014-2015 Ebola Virus Disease outbreak; identify the barriers to a successful prevention strategy; identify successful components of the prevention strategy and to develop a community led collaborative strategy for highly communicable diseases.	SESSION 23b <i>Infection prevention and control in dental labs</i> Dr Rebecca Taylor Senior Lecturer, School of Healthcare Science, Faculty of Science and Engineering, Manchester Metropolitan University Infection control issues pertinent to Dental Technology laboratories will be introduced and the importance of communication practises between the dental team will be highlighted to ensure effective decontamination of dental prostheses.	SESSION 23c <i>Audit and Surveillance Workshop Surgical Site Infection surveillance: behind the scenes</i> Pauline Harrington Senior Infection Control Nurse, Public Health England The objective of this session is for attendees to understand what is involved in running a national SSI surveillance service and how surveillance can be used to improve clinical practice.	SESSION 4 11:50 – 12:25 <i>Using IPC audits to drive quality improvement</i> Gary Cousins Infection Control & Clinical Development, Four Seasons Healthcare During this session Gary will define quality, identify difference between Quality Assurance and Quality Improvement. He will also discuss auditing methods to obtain accurate results, identify who should be involved in the auditing process. And finally discuss why quality improvement is essential and who can benefit.	

PROGRAMME

Wednesday continued

Time	Royal Hall	Queens Suite 1	Queens Suite 2	Kings Suite
	12:15 – 12:50	<p>SESSION 24a</p> <p>Reflections</p> <p>Dr Jon Otter Epidemiologist, Imperial College Healthcare NHS Trust @jonotter</p> <p>During conference Jon will ask conference attendees to vote via the conference app for their preferred presentation. Voting will close at Midnight on Tuesday 27th Sept, and Jon will present the presentation which receives the most votes.</p> <p>The presentations to choose from are:</p> <ul style="list-style-type: none"> • How to control CPE (or not). • Use of social media by healthcare professionals – useful or a waste of time? • Your hospital room can make you sick! Why we need to do a better job of hospital cleaning and disinfection. 	<p>SESSION 24b</p> <p>Fact and fiction... Microbial risks and control in dental settings</p> <p>Peter Hoffman Consultant Clinical Scientist, Public Health England</p> <p>The objectives of this session are to explore how dental settings and instruments are contaminated and by what; Identify the significance of contamination from various sources in dental settings and outline the significance of decontamination of dental instruments and the environment.</p>	
12:50 – 14:20	EXHIBITION VIEWING, POSTER VIEWING AND LUNCH			<p>13:00 – 14:00</p> <p>EXHIBITION VIEWING, POSTER VIEWING AND LUNCH</p>
13:40 – 14:15		<p>SESSION 25</p> <p>Oral sex and human papilloma virus – the missing link</p> <p>Natalie Foley Infection Control Consultancy, Eastbourne</p> <p>Delegates will gain knowledge on the microbiology of HPV and route of transmission. Current guidance for the identification, treatment and precautions to prevent HPV contact Government advice and statistics on vaccination programme, target audience and trends.</p>		<p>SESSION 6</p> <p>14:00 – 14:35</p> <p>Visualising the invisible</p> <p>Dr Colin MacDuff Senior Researcher Fellow The Glasgow School of Art</p> <p>Professor Alastair MacDonald Senior Researcher School of Design, The Glasgow School of Art</p> <p>During this session Dr MacDuff and Professor MacDonald will discuss healthcare staff visualisation of invisible pathogens, dynamic visualisation of new research data in context, evaluation of a tablet-based educational tool, and the development of a new ideas network for this field.</p>

WEDNESDAY 28 SEPTEMBER – EXHIBITION VIEWING 09:00 – 14:20

Wednesday continued

	Time	Royal Hall	Queens Suite 1	Queens Suite 2	Kings Suite
WEDNESDAY 28 SEPTEMBER – EXHIBITION VIEWING 09:00 – 14:20	14:20 – 14:55	<p>SESSION 26a</p> <p><i>Engaging senior management</i></p> <p>Professor Tricia Hart IPS Patron @TriciaHart26</p> <p>This presentation will reflect on the importance of gaining maximum support from the Board of Directors and Senior Managers to ensure policies are robust, compliance regimes are maintained and new projects to refresh and minimise complacency are well supported.</p>	<p>SESSION 26b</p> <p><i>Show me the evidence – infection prevention guidance and practices in dentistry</i></p> <p>Christine Whitworth Lecturer, Infection Prevention in Dentistry, Palm Street Limited</p> <p>This session gives you an opportunity to understand the complete process of instrument decontamination within the dental setting, especially Dental Handpieces. The presentation will highlight the importance of lubrication and the different methods used. This is of benefit to us as we are all dental patients.</p>		<p>SESSION 7</p> <p>14:35 – 15:10</p> <p><i>Dental health in older people</i></p> <p>Isabelle Tucker Public Health Consultant, Wiltshire Council</p> <p>During this session Isabelle will underline the value of carrying out root cause analysis and IP&C, raise the awareness that dental care does not stop when you enter long term care. She will also discuss why this is important in later life and suggest tips on how older people can be supported in maintaining their oral health.</p>
	15:00 – 15:45	<p>SESSION 27a</p> <p><i>The art of brilliance</i></p> <p>Andy Cope Best-selling author @beingbrilliant</p> <p>We live in a manic society where most people's lives are on permanent fast-forward. The modern workplace is typified by a never ending regime of restructures and budget cuts. Uncertainty prevails. Customer expectations are rising, competition is fierce and legislation is tightening. Outside of work there are family pressures. And society. And the traffic. And Brexit. Oh, and don't forget the weather!</p> <p>But despite this craziness, some businesses and individuals continue to shine. Our mission has been to seek out these people and work out the magic ingredients. 'The Art of Being Brilliant' is the culmination of our research which comes together in a blinding flash of inspiration and the bleedin' obvious.</p> <p>Yet if it's so obvious, why are so few people doing it?</p>	<p>SESSION 27b</p> <p><i>Instrumental decontamination within the dental setting</i></p> <p>George McDonagh Honorary Lecturer/Validation Engineer, Glasgow Dental Hospital and School</p> <p>The objectives of this session are to explain the method of cleaning the internals of the dental handpiece and why the use of a Washer Disinfector is important; provide better understanding of various types of sterilisers used in dentistry and explain the differences between the Vacuum and Non Vacuum Benchtop Steriliser and help you overcoming issues related to instruments in particular the Dental Handpiece to ensure cost effectiveness.</p>		<p>SESSION 8</p> <p>15:10 – 15:45</p> <p><i>Catheters and prevention of Catheter Associated Urinary Tract Infection (CAUTI)</i></p> <p>Gill Manojlovic Head of Infection Prevention and Control, Calderdale Metropolitan Borough @aMrsMog</p> <p>The session will providing delegates with an overview of the risks associated with long term catheter use in care home environments including the history of the catheter, prevention of infection and alternates to indwelling catheters.</p>
	15:45 – 15:55	<p>Close of Conference Dr Neil Wigglesworth IPS President</p>
